402.802.6427

2301 SW 12th Street
Lincoln, Nebraska 68522

Detail-oriented graphic designer/front-end web developer combining research, concepting, and creativity to solve problems for clients with professional and distinct outcomes.

WORK EXPERIENCE

Freelance Graphic Designer | Lincoln, Nebraska

September 2013–Present

Produced user-centered designs for various non-profit clients creating print materials, communicating with team members to ensure the results met group objectives. Designed indoor and outdoor banners and signs to suit client needs. Worked one-on-one with clients to create logos for business identities. Designed and developed website for a local health-care clinic on a 2-person team.

Mechanical Drafter | Greenville, Texas

January 2005–December 2006

Assisted engineers in creating mechanical designs by producing 2D and 3D detail drawings for mechanical parts. Converted legacy drawings to digital designs with constant emphasis on detail and organization. Collaborated with mechanical technicians to ensure accurate documentation for production and assembly.
